Create Album Popup

Insert name for new album

Create New Album

The image shows a light gray rectangular popup form. At the top, it contains the text 'Insert name for new album' in a small, dark font. Below this text is a white rectangular text input field with a thin gray border. At the bottom of the form is a rounded rectangular button with a gray border and the text 'Create New Album' in a dark font.

Creates new
album with
inputted name

A dark gray arrow points from the right side of the 'Create New Album' button to the text on the right.

Rename Album Popup

Insert new name for album

Rename Album

Renames album
with inputted
name

Opened Album Page (Photo View Page)

Prompts user to select photo from their computer, which will then be added

The UI mockup shows an album page with the following elements:

- Album Name:** A text input field at the top left.
- ImageView containing all images in the album:** A large central area for displaying album images.
- Add Picture:** A button at the bottom center.
- ImageView showing selected image:** A smaller view on the right showing the currently selected photo.
- Delete Picture:** A button below the selected image view.
- Move/Copy Picture:** A button below the selected image view.
- Date:** A text input field.
- Caption:** A text input field.
- Confirm:** A button next to the caption field.
- Tag/Value Table:** A table with two columns, 'Tag' and 'Value'. It currently displays 'No content in table'.
- Tag/Value Input:** Text input fields for adding new tags or values.
- Add/Delete:** Buttons at the bottom of the table to manage tags.

Annotations with arrows point to the following features:

- Add Picture:** Prompts user to select photo from their computer, which will then be added.
- ImageView showing selected image:** Deletes selected picture.
- Delete Picture:** Deletes selected picture.
- Move/Copy Picture:** Takes user to Moving or Copying Photo Page.
- Confirm:** Confirms caption for selected photo, allowing user to edit if desired.
- Tag/Value Table:** Allows user to add new tag to selected photo based on inputted text fields.
- Add/Delete:** Allows user to delete tag on selected photo based on inputted text fields.
